

roots®

Absorbs up to **150x** its
weight in water

The logo for Terra-Sorb is centered on the left side of the image. It features the brand name "TERRA-SORB" in a bold, white, sans-serif font, with a registered trademark symbol (®) to the upper right of the word "SORB". The text is superimposed on a dark green, textured background that resembles a dense cluster of leaves and vines. From the bottom of this green mass, several thin, brown roots extend downwards into the light blue gradient area at the bottom of the frame. The entire logo is set against a background that transitions from a light tan color at the top to a light blue gradient at the bottom, separated by a curved blue line.

TERRA-SORB®

**SUPER
ABSORBENT
PLANTING GEL**

Can significantly
increase water-holding
capacity of soil

Net Wt 6 oz (170.1 g)

Roots Terra-Sorb

is a high quality, long-lasting potassium-based polymer gel that can significantly increase the water-holding capacity of soil. It absorbs up to 150x its weight in water and slowly releases it into the root zone for use by plants. Terra-Sorb will repeatedly absorb and release water for several years, until it biodegrades naturally.

Recommended Use Rate:

POT SIZE

TERRA-SORB

4"	1/2 tsp
8"	2 tsp
1 gal	2 tsp
3 gal	5 tsp

*Measures indicate level teaspoons.

Directions for Use:

For Potting Containers: use the chart shown. Premix the proper amount with potting soil.

For Garden and Flower Beds: Use up to ¼ lb. per 25 sq. ft. bed. Mix into the top 4" of soil, prior to planting or seeding. It can be broadcast by shaker, spreader or hand – then raked or rototilled into soil.

Safety and Handling:

- Wash hands after handling.

Storage:

Store in a cool, dry location.

CAUTION:

Keep out of reach of children. Keep out of drains.

Roots Terra-Sorb contains no living organisms.

**CONTAINS NON PLANT FOOD INGREDIENTS.
NOT A PLANT FOOD PRODUCT.**

SOIL AMENDING GUARANTEED ANALYSIS

ACTIVE INGREDIENT

Potassium Polyacrylate Polymer..... 93%

INERT INGREDIENTS

Water* 7%

*Water content is derived from atmospheric humidity absorbed during storage.
