

PREMIUM QUALITY

Fall is the **MOST IMPORTANT TIME** to fertilize!

GREENVIEW[®]

Fairway Formula

Fall Fertilizer

Encourages root growth for winter hardiness and spring green-up

Extended time-release feeding of nitrogen lasts through winter

PROMOTES

- Deeper Green Turf
- Faster Green-Up
- Brilliant Color Response
- Fewer Clippings

Ideal fertilizer formulation for lawns less than five years old

Covers 15,000 sq. ft.*

30-0-12

Net Weight 45 lbs. (20.42 kg.)

*See back panel for details

FERTILIZE LIKE THE PROS - IN JUST TWO EASY STEPS!

Professional lawn care experts know turf needs an even, continuous flow of nutrients and that this is best achieved with a mix of time released nitrogen sources. GreenView Fairway Formula Fall Fertilizer is specially formulated as part of the 2-Step annual lawn fertilization program.

GreenView Fairway Formula Fall Fertilizer is designed for use in the fall - the most important time of the year for feeding your

lawn. It helps established grass continue to grow strong, vigorous roots and prepares grass for surviving winter stress. This special formulation helps maintain a thick, green lawn through the fall months and provides for an early spring greening. For best results, apply GreenView Fairway Formula Fall Fertilizer during the fall months of September to October*.

USE INSTRUCTIONS

*Check with your local county or city government to see if there are local regulations for fertilizer use or restrictions for fall fertilizer applications. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices. Apply only to actively growing turf.

For Established Lawns:

Make a single application of GreenView Fairway Formula Fall Fertilizer in early fall, at the application rate that complies with your state law or local ordinances. Do not apply to frozen turf.

For New Lawns:

Fall is the best time to seed new lawns. After lawn has been established and mowed about 2 to 3 times (4 to 6 weeks after seeding or sodding) apply GreenView Fairway Formula Fall Fertilizer at the application rate which complies with your state law or local ordinances. Do not apply to frozen turf.

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your

lawn and sweep any product that lands on the driveway, sidewalk or street, back onto your lawn.

Do not hand spread. Store unused fertilizer safely.

A lawn will typically utilize 1 to 4 lbs of nitrogen per 1000 sq. ft. per growing season. When used as directed, this product will supplement your regular fertilizer program by providing 0.9 lbs. of nitrogen per 1000 sq. ft. per application. Please consult your local extension office for questions regarding a regular fertilizer program.

KEEP OUT OF REACH OF CHILDREN.

SUGGESTED SPREADER SETTINGS

Broadcast Spreader Settings:

Apply in a single pass by starting on the outside border and apply in a circular path working toward the center as shown in diagram.

Drop Spreader Settings:

First make two passes along the top of the area you'll be covering. Then make two passes along the bottom of the area. Then move back and forth along the long part of the lawn. Overlap the coverage slightly and on each pass, as you reach the strips at the top and bottom of the area to be covered, shut off the spreader. It's also important to shut off the spreader when you are stopped. See diagram provided.

Recommended GreenView Fairway Formula fall fertilizer application rate is 0.9 lbs.* of nitrogen per 1,000 sq. ft. Check your state law or local ordinance for required rate.

For Florida, New Hampshire, New Jersey, Maryland and Virginia apply this product at no more than 3 lbs./1000 sq. ft.

0.9 lb. NITROGEN
Application Rate
Covers 15,000 sq. ft.

Broadcast Spreader	Setting (3 lbs. / 1000 Sq. Ft.)
Agri-Fab Rotary	4½
Earthway EV-N Spred Rotary	15
Republic EZGro	9
Scotts Deluxe Edgeguard Rotary	4½
Scotts SpeedyGreen Rotary	4½
Sta-Green	3

0.9 lb. NITROGEN
Application Rate
Covers 15,000 sq. ft.

Drop Spreader	Setting (3 lbs. / 1000 Sq. Ft.)
Earthway Drop	14
Republic Drop	4½
Scotts AccuGreen Drop	4
Sta-Green Drop	4

Follow directions to avoid over fertilizing which may harm your lawn. The spreader settings provided are approximate. Suggested settings were calibrated and field tested. However, age and condition of spreader, speed of operation and evenness of terrain may require slightly different settings for desired coverage.

GREENVIEW FAIRWAY FORMULA TWO-STEP FERTILIZATION PROGRAM

Fairway Formula fertilizer is a premium quality mix of technologies appropriate to the season to provide even, steady nitrogen release. This allows you to fertilize once in spring and once in the fall to give your lawn the nitrogen and potassium it needs. Choose the right spring formulation that best suits your lawn care needs - whether it's crabgrass control, weed control, both - or just straight fertilizer!
