## =GRASS SEED=

# STARTING MULCH

**Retains Moisture**

**Contains Starter Fertilizer**

**Protects & Holds Seed in Place**

**Guaranteed Performance**

**Covers up to 760 sq ft**

**Grass Seed Sold Separately**

**NET WT. 38 LBS. (17.24 KG)**

## GRASS SEED STARTING MULCH

RETAINS MOISTURE TO ASSIST GERMINATION

DRY

WET

FEEDING

GREAT FOR BARE SPOTS!

Full-Rate Starter Fertilizer: 1-2-0.5

### GUARANTEED ANALYSIS

Total Nitrogen (N).....	1.0%
0.88% Ammoniacal Nitrogen	
0.06% Nitrate Nitrogen	
0.06% Urea Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ).....	2.0%
Soluble Potash (K <sub>2</sub> O) .....	0.5%
Derived from: Urea Ammonium Nitrate Solution, Ammonium Polyphosphate and Muriate of Potash.	
	F699

### ALSO CONTAINS NON-PLANT FOOD INGREDIENTS

#### Soil Amending Guaranteed Analysis:

88% Paper Mulch

4% Sodium Polyacrylate

#### Ingredients:

8% Fertilizer

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.regulatory-info-lebsea.com>.

In the states of MD, NJ, NY or VA phosphorous-containing fertilizer that is intended for non-agricultural use may only be used on:

1) Newly seeded turf or turf during its first growing season

2) Turf areas being repaired or renovated

3) Turf where a soil test performed within the last 3 years indicates a phosphorous deficiency

This fertilizer is not intended for the routine maintenance of turf.

In the state of MA do not apply more than 2.0 lb/1000 sq. ft. available phosphate per year.

In the state of NH do not apply more than 1.0 lb/1000 sq. ft. available phosphate per year.

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands on the driveway, sidewalk, or street, back onto your lawn.

#### WARNING:

To avoid danger of suffocation, keep this bag away from babies and children. Do not use this bag in cribs, beds, carriages, or playpens. This bag is not a toy.

### GreenView® Grass Seed Starting Mulch

A premium pelletized protective covering designed to help grass seed germinate and thrive. Made from recycled paper and starter fertilizer, it creates the ideal environment for strong root development. Use it to repair bare spots, seed new lawn sections, or overseed—while choosing the best seed for your lawn.

#### GROWS GRASS FASTER & STRONGER

- Retains moisture in the soil, improving grass seed germination.
- Includes a full-rate of starter fertilizer specially formulated to promote deep, healthy roots.
- Protects germinating seeds from the sun's heat and drying winds.
- 100% weed-free—unlike straw, it contains no weed seeds.
- Biodegradable requiring no clean-up.

### INSTRUCTIONS FOR BEST RESULTS

#### 1 Prepare The Soil

Loosen the top layer with a garden rake. Spread your grass seed as directed on the grass seed packaging. For optimal performance, we recommend using GreenView® Pure Grass Seed.

#### 2 Apply GreenView® Grass Seed Starting Mulch

For small areas, apply by hand (wear gloves). For larger areas, use a spreader. Don't overfill—set it to the highest setting and make multiple passes for even coverage. Apply enough to cover 1/4 of the exposed soil. One pound of product covers 20 sq. ft.

#### 3 Water Thoroughly

Once watered, the pellets absorb up to three times their weight, expanding and retaining moisture for a few days, depending on weather in your area.

#### 4 Keep Watering

When pellets lighten in color, re-water the area. The mulch naturally biodegrades as the grass grows—no cleanup required!

#### GUARANTEE:

GreenView® guarantees the performance of this product, when used as directed. Please visit [www.GreenviewFertilizer.com](http://www.GreenviewFertilizer.com) for more info.
